Legend

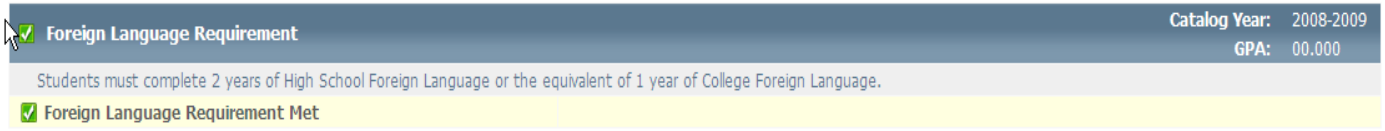
Complete	Completed with registered courses	(T) Transfer Class
Not Complete	Nearly complete	@ Wild-Card - Any Subject or Course number
* A Pre-requisite for this course exists		

6. **The legend describes the codes you'll throughout the audit. The basic idea of the audit is to make sure that all the requirement blocks are green. Anything not green is incomplete. Below is a description of what the other colors mean:**

   a. Not Complete **When a requirement is not met, and you are not registered for a course to meet the requirement, the box will be white.**
   b. Completed with registered courses **When you are registered for a course that will meet a requirement upon completion, the box will be blue and have a tilde " ~ " in the box.**
   c. Nearly complete **When there is a requirement rule that has multiple courses within the requirement, and you are regisered for those courses, the box will be blue with a double tilde.**
   d. Complete **Once a requirement is met, the requirment turns green.**

7. **The first block in your audit is a summary of all your requirements towards your Degree. You will use the legend above to help you read your audit. For example, you will see that this student has the Foreign Language Requirement met, but still needs to complete the other requirements.**

8. **The next block will tell you if you have completed the Foreign Language Requirement.**



9. **The next block lists the Liberal Education Requirements. If you have transfer courses that work towards these requirements, the box for that particular requirement will be checked. Any remaining requirements will be unchecked and show the requirement as not complete.**
